

Your journey to *sustainable success* starts here ...

A person is silhouetted against a vibrant, colorful night sky filled with stars and the Milky Way galaxy. The sky transitions from a warm orange glow at the bottom to a deep blue and purple at the top. The person is standing on a dark, rocky outcrop, looking up at the vast expanse of the universe.

All require a holistic approach for sustainable transformation & success

YourLAB by Telos

option 1

You are ambitious and you feel you can unlock significant potential in your business, and you want to explore this

option 2

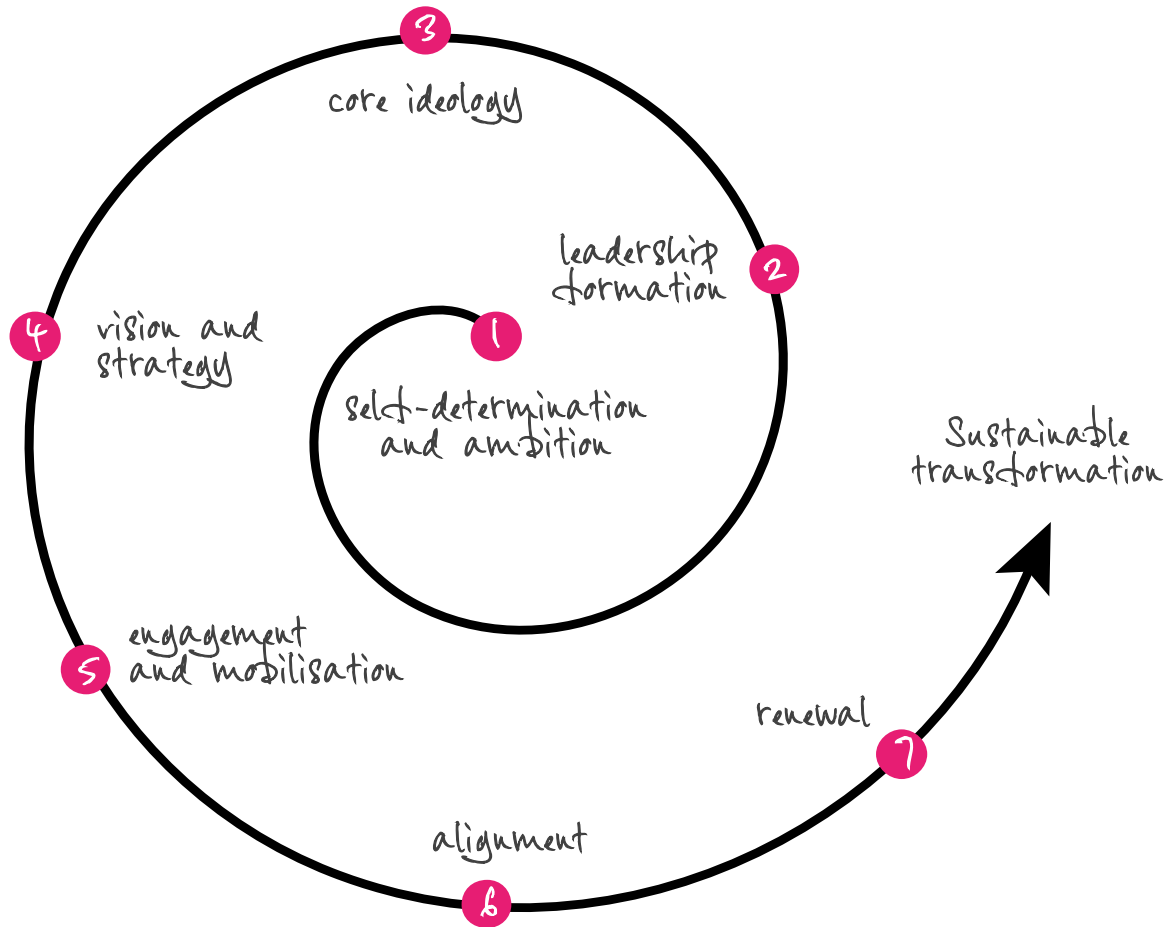

You have identified your need for change and look for your best way to start and proceed

option 3

You face many challenges and want to clarify and prioritize them

Your chance to pause, reflect & discover new opportunities

We have identified *Seven elements* critical to create and sustain success

- 1 Sustainable success is typically anchored by a leader who has the ambition and determination to lead for the long-term despite any perceived obstacles
- 2 The leader assembles the right team around them who are capable and committed to face the challenge together
- 3 Real clarity of purpose and values is essential to enable change to occur without threatening the identity of the organisation
- 4 The leadership team works with a widening circle of key people to develop a shared vision and strategic framework for success
- 5 The whole organisation is fully engaged by enabling them to participate in the debate, to explore implications together for their specific areas of work and to feed in their ideas
- 6 Organisation structure, processes and behaviours are systematically aligned to the new direction across the organisation
- 7 The organisation embeds the learning and builds the capability to adapt continuously so that success is sustained

Where is *your organisation* right now?
