

VISION

“We cultivate an inclusive business community through a forum of sharing knowledge, experiences and connections”

MISSION

WE SUPPORT BUSINESS

We support Belgian, Luxembourg, Singaporean and International businesses and professionals by leveraging our community’s experience, network and insights. Our goal is to give our members a head start where needed, to represent their interests, to facilitate business opportunities and to develop relations with their local and regional ecosystems.

WE BOND PROFESSIONALS

We offer visibility and networking opportunities, both physically and virtually, with a focus on diversification as to the concept, audience, content and deliverables. We act as a catalyst for meaningful and lasting relationships.

WE BRIDGE COMMUNITIES

Our community welcomes any individual or business into our inclusive, multidisciplinary and non-discriminatory environment. In unison with our host country Singapore, we believe in the strength of cross-cultural engagement and bring together people from all walks of life, from students to seasoned CEOs and from start-ups to MNCs.

WE SHARE INSIGHTS AND EXPERIENCE

We offer a mix of high-level content with networking opportunities through our events, seminars and webinars, including company visits, keynote speakers and C-suite sessions. Our subcommittees trigger debate among subject matter experts. We share knowledge and best practices not only at formal occasions but equally through one-to-one contacts as a result of the network build-up.

VALUES

- ❖ Connecting People and Businesses is at the heart of what we do!
- ❖ We forge meaningful and trustworthy Relationships and Communities!
- ❖ Collaboration, Sharing and Bonding enables us to grow!
- ❖ We passionately contribute through Commitment and Enthusiasm!
- ❖ We actively promote Diversity & Respect!
- ❖ With Integrity & Professionalism we do the right thing: anywhere, anytime, anyhow!

We help Singaporeans or Singaporean companies understand Belgian and Luxembourg business culture
